8. MAKE OF VEHICLE	9. MODEL	10. YEAR	11. COLOR	12. LICENSE NUMBER	13. STATE

I CERTIFY that the vehicle to be worked on is owned by me or members of my family.

14. SIGNATURE

Federal Law and Department of Defense policy (10 USC 2575 and DOD 4169.21-M) require precise, time-consuming procedures to be followed when disposing of abandoned property. In order to avoid the expense and inconvenience this procedure involves, the customer specifically that the Nonappropriated Fund Instrumentality (NAFI) supporting the automotive craft center may unconditionally dispose of the property described above in any manner it may deem suitable if it is permitted to remain on the automotive craft center premises past

_____, and the owner releases the U.S. Government, its NAFIs, and its representatives from all claims and demands arising from such disposition. The release extends to the owners heirs or assignees which might assert such claims or demands as a result of the NAFI disposing of the property.

This _____ day of _____

About the ITAOP/savePDF Method

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).
