*Machine scan codes must be removed or marked through to prevent further use. All coin bags, bill stacker boxes and extractors must be transferred with the machine(s). All machine and stand locks must be removed prior to packing for transfer. All removed locks must be shipped to HQ AFSVA/SVPCA within 3 days of removal. All machines and stands must have a preventative maintenance inspection (P.M.I.) performed prior to the transfer. The slot machine item file within the Intelligent Tracking System (ITS) must be annotated to correctly reflect the transfer and the change fund may require adjustments.*

### **About the ITAOP/savePDF Method**

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).
