The purpose of this form is to help you select the most essential items to retain on the test you will be writing. When determining your ratings, consider only the knowledge each question measures, not the wording or question format.

To perform successfully as a technical sergeant and master sergeant in the specialty, the knowledge measured by the question is:

About the ITAOP/savePDF Method

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).
