About the ITAOP/savePDF Method

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).

PRIVACY ACT STATEMENT

AUTHORITY: 10 U.S.C. 8013; and EO 9397.

PRINCIPAL PURPOSE: To record personal information on an individual who duty performance requires entry into Air Force restricted areas.

ROUTINE USES: To coordinate with the appropriate official on an individual's need to enter a restricted area. To record information on when and what type of entry credentials is issued to an individual. The SSN is used for further identification of an individual.

DISCLOSURE IS MANDATORY: Failure to disclose the information and SSN would result in not being allowed into these areas.
