

## TRANSPORTATION AUGMENTEE CUSTOMER FEEDBACK

As a member of the Resource Augmentation Duty (READY) Program team, you provide a valuable service to the wing deployment mission during base exercises and contingency operations. Please take the time to evaluate this program as it pertains to the AF mission, to your applicable deployment work center/duties and to you, and give us feedback that will be a benefit to the program. Your inputs **DO** make a difference. Please specify, specify, especially with a **NO** answer. The more specific the ideas relayed, the better the possibility for lasting/long term corrective actions. THANK YOU.

### **About the ITAOP/savePDF Method**

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).
