BAK-15	SHEPPARD AFB												33C / 15C																		
Daily Inspections <i>(Initials)</i>	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31
<i>Inspect net for damage</i>																															
<i>Inspect net centerline, elevation and alignment</i>																															
<i>Inspect net, suspension straps, shear links, anchor straps and anchor disks</i>																															
<i>Inspect net support system for security</i>																															
<i>Inspect guy wire and guy anchor support for security or damage</i>																															
<i>Check mast assembly for security para 6-2.1.1</i>																															
<i>Check mast head for sheave for freedom of movement para 6-2.2.1</i>																															
<i>Check net tensioning wire for security para 6-2.3.1</i>																															
<i>Inspect shear pin for premature deformation para 6-2.4.1</i>																															
<i>Check hydraulic pressure in system para 6-3.1.1</i>																															
<i>Check tower control and panel position/condition lights with actual</i>																															
<i>Check SAFE/ARM switch to ARM</i>																															
<i>Check stanchion up/down cycle</i>																															
<i>Check obstruction lighting</i>

About the ITAOP/savePDF Method

The traditional Field-by-Field creation process is extremely ineffective and slow.

The only realistic option to create high-quality forms is the Insert-Text-Anywhere-on-Page (ITAOP) method.

The field creation process is about 10,000 times faster than the traditional method; the list of ITAOP features is not even available for the traditional method.

ITAOP savePDF method proved to be very simple and completely reliable for millions of users all over the world (incl. individuals, companies, organizations, government employees).

MONTHLY	INITIALS	COMMENTS
DATE ACCOMPLISHED		
<i>Inspect stachion hydraulic manifold for leaks para 6-3.4.1</i>		
<i>Inspect lock/unlick cylinder rod/rod ends for damage. para 6-3.6.1</i>		
<i>Inspect actuating cylinder rod/rod ends for damage. para 6-3.7.1</i>		
<i>Inspect reservoir assembly for hydraulic fluid level. para 6-4.2</i>		
<i>Inspect fluid filter vacuum. para 6-4.11.1</i>		
<i>Inspect general condition of hydraulic hoses</i>		
<i>Inspect BAK-15, chain area for vegetation</i>		
QUARTERLY	INITIALS	
Date Accomplished		
<i>Check solenoid valve operation. para 5-5.1</i>		
<i>Replace hydraulic fluid filter. para 6-4.11.2</i>		
<i>Set relief valve pressure. para 6-4.5.2</i>		
<i>Synchronize mast travel. para 6-3.5.3</i>
