Encl: (1) Definitions

1. Purpose. To establish Department of Navy (DON) VOLED policy and assign responsibility for Navy and Marine Corps VOLED programs in accordance with references (a) through (f).

2. Scope. VOLED enables active duty Sailors and Marines to further their education by completing a high school diploma or its equivalency (GED), upgrading basic academic skills, and achieving a technical certificate or college degree.

3. Definitions. Special terms used in this instruction are defined in enclosure (1).

4. Applicability. This instruction applies to the active duty component of the Navy and Marine Corps. On a space available, self-funded basis, adult family members, retired members, their family members, and civilian employees of the Department of Defense (DoD) may take advantage of educational opportunities provided under the VOLED program. Active duty members of other United States armed services who are assigned to Navy or Marine Corps commands may also participate in DON VOLED programs.

5. Background. VOLED programs in the Navy and Marine Corps were established in the early 1970s with the advent of the all-volunteer force, to help recruit and retain quality personnel. Today, investment in VOLED is essential for the department's Quality of Life program.

6. Mission. By helping Sailors and Marines continue their education, the DON will: (1) enhance the career potential of

members; (2) retain quality personnel; (3) strengthen job performance; and (4) facilitate further learning.

7. Policy. In support of these purposes:

a. Navy and Marine Corps shall support educational programs in which Sailors and Marines may participate voluntarily by ensuring members have access to educational services regardless of mission or duty assignment. Wherever appropriate, distance learning technologies are to be used to support this policy.

b. In accordance with reference (b), Navy and Marine Corps shall only support educational institutions that are accredited by an agency recognized by the Department of Education and the Council for Higher Education Accreditation, or a successor organization.

c. The Navy and Marine Corps will adhere to the uniform Tuition Assistance policy established by the Department of Defense (DoD).

d. Staffing at education offices should be adequate to support the number of active duty personnel on site. Per reference (d), the requirement is one educational staff member for every 2000 active duty personnel, with the condition that the minimum standard for an education center is two staff (including one professional) at each center.

e. Navy and Marine Corps shall ensure that guidance, counseling, and testing services are provided by qualified personnel.

f. Navy and Marine Corps shall ensure members are given an opportunity to upgrade their basic/academic skills regardless of mission or duty assignment. In accordance with reference (e), adult family members are eligible to participate in academic skills programs overseas.

g. Sailors and Marines shall be encouraged to obtain a Servicemembers Opportunity College Navy (SOCNAV) or Servicemembers Opportunity College Marine Corps (SOCMAR) student agreement in order to achieve a college degree.

h. The Navy and Marine Corps shall participate in the Military Installation Voluntary Education Review (MIVER) and provide responses to specific MIVER reports to the Secretary of the Navy's office (Assistant Secretary of the Navy (Manpower and Reserve Affairs)).
